Dollar gains.

The US dollar gained against a basket of currencies and recovering from recent selling pressures. There is a stronger risk appetite across the markets and a renewed optimism that the US will successfully push through a tax reform programme. The Canadian dollar lost some ground as the Bank of Canada left interest rates unchanged and showed enough caution to dampen expectations for an interest rate hike early next year. For those following crypto currency Bitcoin is nearing \$15,000, having started the year around \$1,000 and will either prove an opportunity missed, or a h
